

DOT Hazardous Materials Transportation

This 8-hour, awareness-level, instructor-led training course provides employers and employees of small or mid-sized companies or agencies with critical hazardous materials (HazMat) training information on loading, unloading, or preparing HazMat for transportation. Specifically, this course focuses on the unique transportation requirements for carriage by highway and rail. Topics covered include:

- DOT Hazardous Materials Regulations (HMR) (49 CFR Subchapter C)
- Hazardous material recognition and identification
- Basic emergency response procedures regarding HazMat
- Determining quantities and appropriate markings, labeling and packaging for HazMat
- Preparing shipping papers for transporting HazMat
- Safe and secure handling, packaging, labeling and transportation practices for HazMat

Who Should Attend This Course:

Employers/employees of small to mid-sized companies or agencies within a 600-mile radius of Findlay, OH. This includes:

- Employees who load, unload prepare and/or transport HazMat
- Employers who must comply with the DOT Hazardous Materials Regulations (HMR)
- Small to mid-sized companies or agencies who transport hazardous materials and/or manufacture containers or other packaging components that are qualified for use in transporting HazMat

Additional Information:

This course meets the requirements for Initial and 3-year Refresher DOT HMR training (49 CFR Part 172 Subpart H). A minimum of 15-25 participants is required to conduct the training.
